

## 2007 WINTER CABERNET SAUVIGNON

### NAPA VALLEY

The 2007 Winter Cabernet Sauvignon is an exceptionally structured pure wine with silky smooth tannins and dense, opulent rich fruit. It offers concentrated, supple layers of flavor of currant, blackberry, black licorice and mocha, with subtle loamy earth. The grapes come from our estate vineyard plus one

additional vineyard site. Both vineyards are planted on well-drained soils that produce a low-yielding crop of highly concentrated fruit. These two sites allow Winter to capture varietal nuances expressed in each location. The wine has an exceptional long finish which rests pleasingly on the palate. The 2007 Winter can be enjoyed now, but will also age beautifully for up to twenty years.
